Re: Tyler Mayer

Dear CG Week 2016 Organizers:

I am writing to confirm student status for Tyler Mayer, a PhD student here at Stony Brook University, and to endorse his application for student travel support to attend CG Week 2016 in June. I serve as Tyler's advisor. He works also with Prof. Michael Bender and Prof. Jie Gao.

Tyler has been engaged actively in computational geometry research, studying a variety of problems in the area of geometric optimization (bipartite TSP, "pairs" network optimization, uncertainty), approximation algorithms, and trajectory analysis. He is the type of student who becomes thoroughly engaged in research activities and I am confident he will take full advantage of the opportunity to be part of CG Week this year.

If I can provide any further information, please feel free to contact me.

Sincerely,

A handwritten signature in black ink that reads "Joseph S. B. Mitchell".

Joseph S. B. Mitchell  
SUNY Distinguished Professor  
Dept. Chair, Applied Mathematics and Statistics  
Director, Computational Geometry Lab
